WEST HUMBER JUNIOR MIDDLE SCHOOL

Monday, October 15th, 2012

Dear Charis Newton-Thompson,

I am writing to you regarding a very dynamic motivational speaker that our school has had the pleasure of hearing – Joy Foster.

Ms. Foster presented a workshop to our parent community this past March entitled “Is Stress & Anxiety getting in the way of your child’s Education?” She also tailored the workshop to be presented to our grade 6 – 8 students.

Ms. Foster is a very engaging, energetic speaker that speaks from her heart. She uses no gimmicks or magic tricks. Ms. Foster doesn’t quote numerous studies and data. She speaks of everyday life which is how she draws in her audience. Ms. Foster held the audience in the palm of her hand. Just watching her you could see the nodding of heads by the audience and the realization that Ms. Foster has been through similar situations that they themselves are facing. After the inspirational talk Ms. Foster entertained questions from the both the parent and student audiences.

I do not hesitate in the slightest in recommending Ms. Foster as a motivational speaker, writer or career coach. She touched the heart of many and makes her presentations touch everyone’s lives. We, here at West Humber Junior Middle School have had numerous requests for her contact information for other venues. As well, our school council is seriously considering having her back again this year.

Sincerely,

Mara Charbonneau
Vice-Principal
West Humber J.M.S.
